

## THE NEW INDIAN SCHOOL, BAHRAIN

### EXAMINATION TIPS FOR CENTUM HARVESTERS

- Stick to NCERT text books. If requires, refer other books of importance as suggested by the teachers. Give importance to Example problems in NCERT. Don't try to study for long hours. Take breaks and relax.
- Practice is the key to success. No matter how much you study, you can't score well in board exam until and unless you have not practiced with pen and paper before appearing for the exam.
- Revise all the important questions and formulas. Do mock tests after preparing all the chapters.
- Solving at least 10 or so papers for Maths and around 5–6 for the other subjects will provide enough confidence and experience. All that practice will help you to stay calm in the examination hall. Solve as many sample papers as you can.
- Avoid unnecessary tension and focus on doing well. If you have practiced well, success is a sure bet. Do not allow stress to master your confidence.
- Utilize the reading time very effectively. Your planning begins there. Write answers very neatly and start with sections you know the most .It will create a good impression while the evaluator checks your paper. Manage your time and leave the difficult questions for last. Write all the steps elaborately. Attempt all the questions compulsorily.
- Use a rough sheet for planning your headings, sub headings and workouts. This will help you to organize well before you place the answer on the paper. Be vigilant about the time.
- All the lines and working steps must be done in the margins or as guided by the subject teachers.
- Write the answers with the required word limit. Do not drag the answers to unnecessary levels thinking that you may gain more marks. You get only what is allotted.
- Each sub question should be answered separately as per the marks.
- Diagrams, graphics and other illustrations must be clearly demarcated. This will add the variety and clarity to the answers.
- Use the last 10-15 minutes effectively for reviewing and rechecking. Identify all the unnoticed errors and correct. Use good qualitative pens for writing. Keep the supplementary materials handy within reach. Do not lend or borrow any materials in the exam hall.
- Do not over burden and burn. Take the mission with confidence and ease. Pray and get the blessings of your parents and teachers. You will accomplish your mission.

Best wishes
